

ODEBOLT BETTERMENT COMMITTEE

November 25, 2008

City Hall @ 1:30 p.m.

The Odebolt Betterment Committee met at the City Hall to finish compiling information for the Iowa's Living Roadways Grant application.

Within the last 24 hours many disappointing factors have been discovered. "Hardscape" materials are not eligible for this grant...perhaps as matching...but not for the application itself. So we are now limited to the trees, plants and shrubs. (flowers, grasses, etc) So the Way-finding Signs are ineligible for this grant as well as the lighting intended for the Odebolt signs. The shelter house improvements are also not eligible on this particular grant application.

Madeline is going to get more plant bids so as to meet the 50% native to Iowa requirement.

Joan & Phyllis (and Julie) will get the list printed with the information on hand and will continue working on the Project Description. Shirley has sent info for this as well.

Madeline will come to City Hall on December 1st to help finalize the application.
